SUMMARY

Computer Science graduate with hands-on experience in full-stack development through internship and academic projects. Skilled in Go, Nuxt.js, and Flutter, with experience building RESTful APIs, web applications, and mobile applications. A fast learner who continuously seeks to improve technical and problem-solving skills, and currently looking for an opportunity to grow as a Full-stack Developer while contributing to impactful and scalable systems.

EDUCATION

Bachelor of Science - Computer Science

GPAX : 3.68 / 4.00

Maharakham university • Maharakham, Thailand • Expected graduation, may 2026

EXPERIENCE

Fullstack Developer - Internship in Metamedia Technology Co.ltd

Dec 2025 - Mar 2026

Bangkok, Thailand • Sathon Square office tower • Cooperative Education

- Developed and maintained **Longdo Map Stats**, a web application for visualizing map usage statistics.
- Designed and implemented 10+ RESTful APIs to process and deliver statistical data.
- Developed interactive dashboards and statistical reports that enabled the sales team to present product usage insights and business metrics to clients effectively.
- Optimized system features and resolved issues to improve performance and user experience.

Lost & Found (Senior Project) - Mobile Application

Jan 2025 - Oct 2025

Fullstack developer • Flutter, Golang, Firebase, MySQL, Push notification, Visual search, Google authentication, GitHub, Portainer, Figma

- Developed a lost-and-found platform to help users report, discover, and recover misplaced items more efficiently.
- Implemented a Visual Search system using the **SIFT** library to identify visually similar items from uploaded images.
- Designed an ownership verification process using security questions to improve the reliability of item claims.
- Integrated private messaging to enable secure communication between finders and item owners.
- Implemented automatic notifications for potential item matches, increasing opportunities for successful item recovery.

Smart Blood Bank - Web Application

May 2025 - Jul 2025

Frontend developer • Flutter, Figma, Authentication, Retrofit, GitHub

- Contributed to the development of the **Smart Blood Bank** System, a web platform that supports blood donation and blood inventory management for hospitals.
- Developed responsive frontend interfaces to streamline staff workflows and improve usability across the system.
- Created UI/UX prototypes in Figma and translated designs into production-ready web interfaces, ensuring consistency between design and implementation.

PaJook Delivery (Mini Project) - Mobile Application

Oct 2024 - Dec 2024

Fullstack developer • Flutter, Firebase, NoSQL, Realtime tracking, Figma, Authentication, Retrofit, GitHub

- Developed an on-demand rider booking platform to streamline item pickup and delivery services.
- Built a real-time location tracking feature that enabled senders, recipients, and riders to monitor delivery progress simultaneously, improving delivery transparency and coordination.

Anihot (Mini Project) - Web Application

2023

Fullstack developer • Angular, Node.js, MySQL, Elo rating, Figma, Authentication, GitHub

- Developed a full-stack FaceMash-inspired web application featuring an **Elo Rating algorithm** to generate fair and dynamic character rankings based on user voting.
- Designed responsive UI/UX prototypes in Figma and implemented them as modern, user-friendly web interfaces.
- Developed RESTful APIs and integrated frontend, backend, and database components, ensuring smooth data flow and reliable application performance.

SKILLS & LANGUAGES

Programming Languages	Go, TypeScript, Dart, Java, PHP, Python
Frontend & Mobile Development	Flutter, Nuxt.js, Angular, HTML, CSS, Tailwind CSS, Retrofit, Flowbite, ApexCharts
Backend Development	Gin, GORM, Node.js, Spring Boot, RESTful APIs
Database & Caching	MySQL, PostgreSQL, Firebase(firestore), Redis
DevOps	Docker, Firebase Hosting, Portainer
Tools & Collaboration	Git, Postman, Figma, VSCode, AI-Assisted Development,
Thai - Native • English - Basic
